

iSHOWS 2

The definitive TV Show tracker
powered by Trakt.tv

Introducing iShows 2

iShows 2 is the best way to manage, discover and keep track of your favorite TV Shows.

Now powered with Trakt so you can get all your up-to-date info synced in every device.

AUTOMATIC SORTING

Three different sorting methods for your shows:

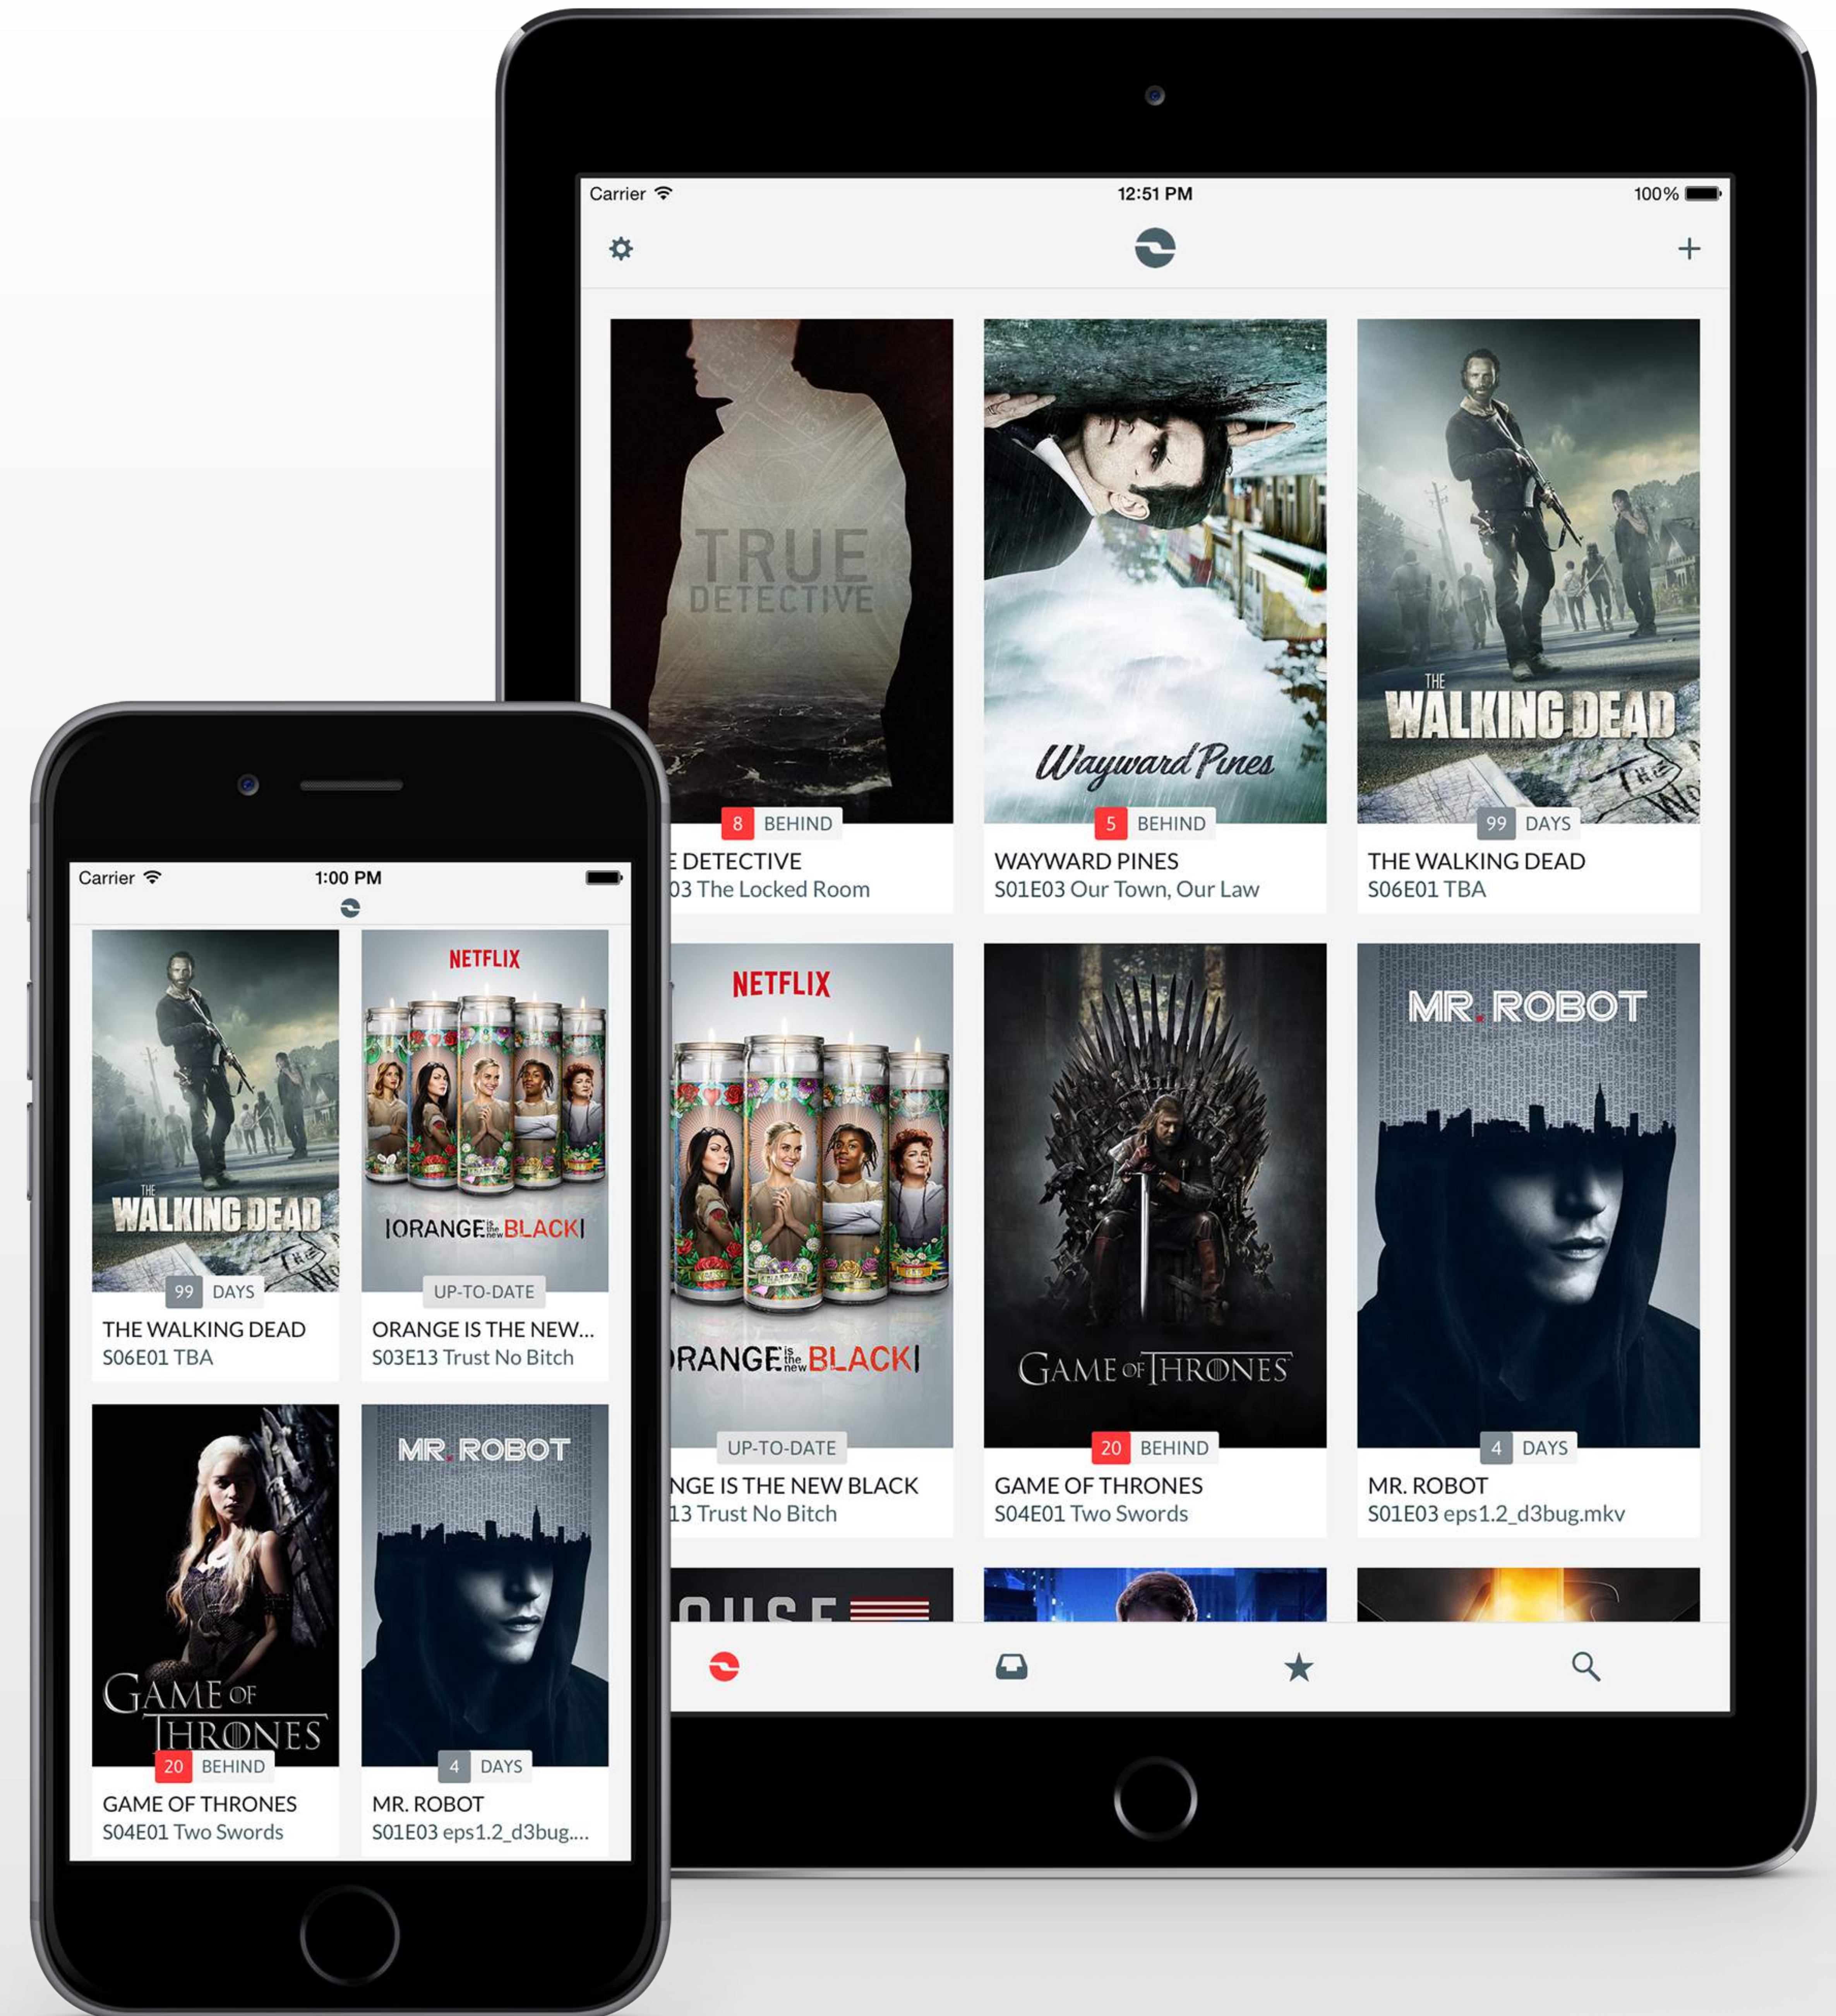

Next episode, Last episode or Alphabetically.

GESTURE DRIVEN INTERFACE

You can perform the most common tasks easily using finger gestures.

DON'T SEARCH, JUST FIND!

When using the “Discover” mode, iShows offers a huge TV Show lists, sorted by categories that can be filtered by genre.

TRAKT.TV INTEGRATION

Using a Trakt.tv account, all your devices will be synced with your episodes up-to-date information.

With Trakt.tv, you will also get recommendations based on your watched history and even know what TV Shows your friends are following.

NOTIFICATIONS

Never miss a new episode using iShows notifications, that can be configured to suit your needs.

AN INCREDIBLE LEVEL OF CUSTOMIZATION

You can change the UI choosing between dark and light themes, poster or fanart layouts, condensed view and more than 5 hilite colors.

And if you want to go a step beyond, change the whole iShows UI using one of the themes based on your favorite TV Shows, like Game of Thrones, The Walking Dead o Breaking Bad.

And a lot of new features...
